Location: Krushnapriya Nagar 04, Sangramnagar, Akhuj - 413101

SUMMARY

Software Developer with 4.5+ years of experience building scalable web applications using React and TypeScript. Strong in frontend architecture, performance optimization, and API-driven UI development. Experienced in owning complex features end-to-end and collaborating with product, design, and backend teams.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Redux, Context API

Testing & Tooling: Jest, React Testing Library, Webpack, Git

Backend: Node.js, REST APIs, PostgreSQL, MySQL, JWT Authentication

Practices: Code Reviews, Agile / Scrum, UI/UX Collaboration, Debugging

EXPERIENCE

Aloha Technology Pvt. Ltd. | Software Developer | July 2021 – Present

- Designed and developed scalable frontend applications using React, Redux, and TypeScript with reusable component architecture
- Optimized frontend performance by reducing unnecessary re-renders and improving state management
- Implemented robust API integration with proper loading, error, and edge-case handling
- Wrote and maintained unit tests using Jest and React Testing Library
- Collaborated with product managers and designers to translate requirements into intuitive UI workflows
- Reviewed code and mentored junior developers with constructive feedback and best practices
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives

PROJECTS

Anchorock ERM – Construction Site Safety Platform

- Led Angular 2 to React migration across the entire frontend codebase
- Built reusable UI component library using React and Material UI
- Developed dashboards and data-heavy forms for site safety workflows
- Coordinated frontend work across a team of 3 developers

Tech Stack: React, JavaScript, Material UI, Angular 2

Independent ERP Platform (In Progress) | Solo Developer

- Building full-featured ERP web app for invoicing, inventory, customers, vendors and accounting
- Architected scalable React component system for data-heavy screens
- Implemented complex state management for multi-step business flows and RBAC
- Integrated backend REST APIs for CRUD operations and authentication

Tech Stack: React, TypeScript, Node.js, PostgreSQL

EDUCATION

Bachelor of Engineering

N B Navale Sinhgad College of Engineering, Solapur
